b) 8♦ 4♣ _____

c) 6♥ K♥ _____

d) 10♠ J♠ _____

e) 9♦ J♥ _____

f) 7♠ Q♠ _____

g) 9♠ J♣ _____

Bird search

1. Find each bird and write its card number and suit, e.g.

K	♥
---	---

 or

4	♣
---	---

a) This white bird has a beak shaped like a spoon.
It is called a Spoonbill.

--

b) This is a brown bird with a red breast.
It is called a Robin.

--

c) This black and white bird has a long tail.
It is called a Magpie.

--

d) This bird of prey feeds on voles and insects.
It is called a Kestrel.

--

e) This large pink bird has a strange, upside-down beak.
It is called a Flamingo.

--

f) Find 3 birds that show an 'Eagle'. All of them have large broad wings that help them to soar long distances on warm air rising from the ground.

<table border="1" style="width: 50px; height: 50px;"><tr><td> </td></tr></table>		<table border="1" style="width: 50px; height: 50px;"><tr><td> </td></tr></table>		<table border="1" style="width: 50px; height: 50px;"><tr><td> </td></tr></table>	

g) This bird, called an Egyptian Vulture, feeds on dead animals so helps keep the countryside free from disease. Many, however, are killed because farmers put out poison which they eat. Because of this, there are now only a few left in Greece. .

--

What is different about them?

1. Find each pair of cards. Write what is different about them.

a) 7♦ 7♥

b) 5♠ 5♥

c) A♦ A♥

d) 9♠ 9♥

2. Choose two cards of your own.

Write what is the same about the birds and what is different.

Similarities:

Differences:

Soundtracks

1. Find these three cards: 7♠ 8♦ 10♠

Listen to each soundtrack, a, b and c.

Match which bird you think makes which sound and write the name of bird:

Soundtrack a: _____

Soundtrack b: _____

Soundtrack c: _____

2. Find these three cards: 2♠ 7♣ 9♠

Listen to each soundtrack, d, e and f.

Match which bird you think makes which sound and write the name of bird:

Soundtrack d: _____

Soundtrack e: _____

Soundtrack f: _____

Listen to each soundtrack, g, h and i.

Match which bird you think makes which sound and write the name of bird:

Soundtrack g: _____

Soundtrack h: _____

Soundtrack i: _____

Maths quiz

For these questions each card is worth a number. All Ace cards are worth 1 and the picture cards J, Q and K are worth 10. The others are worth the number shown on the card.

1. Find 2 cards with a total of 10 where both birds:

a) have yellow on them $\square + \square = 10$

b) have red on them $\square + \square = 10$

c) are shown flying $\square + \square = 10$

2. Find 3 cards with a total of 10 where all the birds:

a) are shown facing right $\square + \square + \square = 10$

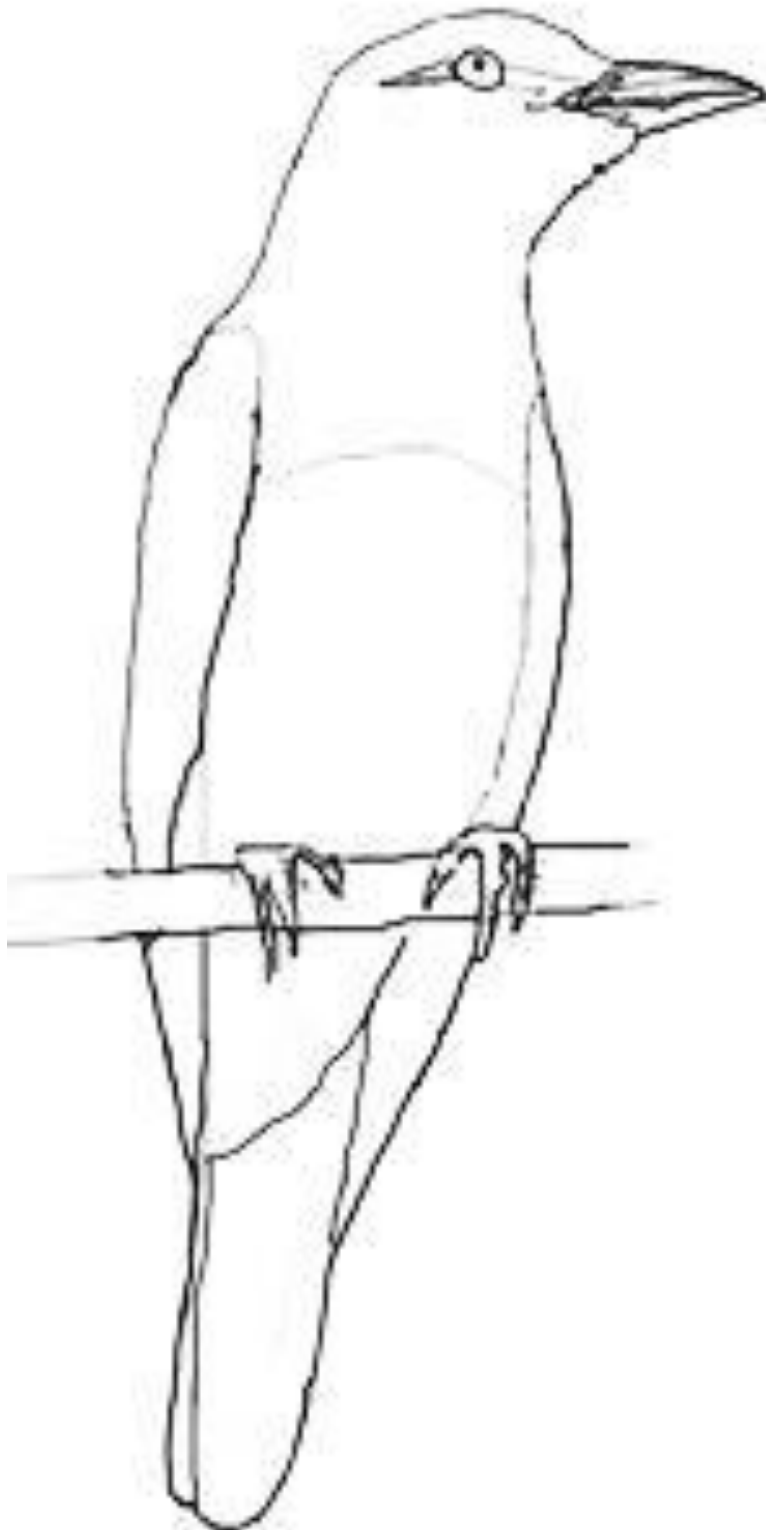

3. Find 3 cards with a total of 20 where all the birds:

a) have some turquoise on $\square + \square + \square = 20$

b) are shown facing right $\square + \square + \square = 20$

4. Now make up one of your own maths totals and write what the birds have in common.

Colour it!

1. Find the 8♥ card.

a) Colour this picture to match the bird.

b) Write the name of the bird.

c) Birds that nest in open nests are often brown coloured so that predators cannot see them. Brightly coloured birds often nest in holes. Where do you think this bird nests?

d) This bird is a summer visitor to Greece. In the winter it migrates – it flies south to warmer weather and more food in Africa. It arrives back in Greece at the start of May and stays here to breed. It leaves about 5 months later. Write the names of the 5 months it is here in Greece.
